Level 2: Sandplay Therapy

A psychotherapeutic, long term, insight-oriented therapy based on work of Dora Kalff and the Psychology of CG Jung. Sandplay therapy creates a bridge between the conscious and unconscious. Dora Kalff describes it as a "pathway to the psyche and in the hands of a properly prepared therapist, it is a powerful, invaluable modality".

"The Sandplay method takes the limited therapeutic possibilities of language into account with great seriousness and offers alternative means of psychic expression" Dr Martin Kalff (2003).

This two-day workshop has been designed specifically for clinicians who are already incorporating Sand Tray as an adjunctive modality in their clinical practice. Pre-requisites are:

- Two-day Introductory training preferably with Jean, Carina or STANZA/ISST teacher
- Qualifications and current practicing certificate in Counselling, Psychology, Psychotherapy or Creative Therapies
- Basic understanding of psychotherapy / depth psychology
- Willingness to engage in regular Sandplay supervision

Overview of the training

This 2-day training expands on Level 1: Introduction to Symbol work and Sandplay Therapy. Content includes:

- The theories that differentiate Kalffian Sandplay Therapy, a psychotherapy, from Sand Tray as a modality
- Jungian Foundation: Structure of the psyche and archetypes
- Case studies to illustrate the theories
- Undirected experientials in pairs to implement observational skills
- Co-transference
- There is a maximum number of attendees in order to allow experientials, and for all participants to create their own trays and the observers to practice reflective responses.
